

Release Date: November 16, 2017

New Dashboard and Navigation

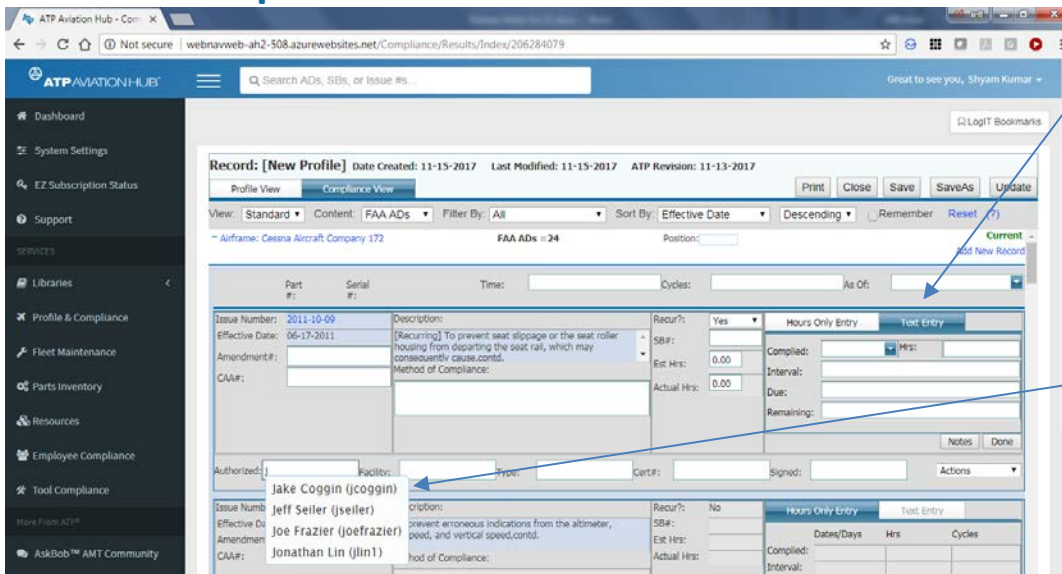

We now navigate through the Hub using the new navigation on the left of the page.

To Sign Off – click the arrow next to your name.

New dashboard widgets are helpful tools for displaying Hub information. Click Dashboard to display the widgets.

Profile Improvements

You can now enter text for compliance data. Click "Text or Hours Only" to enter compliance information.

Select "Authorized By" from names of users in the facility. The certificate information for the selected "Authorized By" person will be automatically entered.

New User Settings (for Hub Admins)

View User ([Back to User List](#))

User Settings ([Edit](#))

First Name:	Luk
Last Name:	Vandenbrande
Email:	LVandenbrande@atp.com
Job Title:	
Username:	Vandenbrande
Template:	MCAdemo
Type:	User
Allow this user to make purchases and renew libraries in the ATP store	<input type="checkbox"/>
Allow this user to receive renewal notices	<input type="checkbox"/>
Allow this user to receive a copy of invoices	<input type="checkbox"/>

When a Hub admin has new settings for users:

Click to allow a user to use the store to purchase or renew a library on the ATP Store.

Click to have the user receive an email receipt for any ATP purchases.

Select to have ATP send the user an ATP renewal notice.

Updates to the ATP Aviation Hub Mobile Application

Download the Latest Mobile Application

You must update your ATP Aviation Hub Mobile App to use the updated cloud application; the current versions of the mobile app will no longer work. The update can be downloaded using Apple's App Store, the Google Play Store, or the Windows Store, depending on your device.

Downloading Publications to your Mobile Device

Any publication in your library can be downloaded to a mobile device. User can download a publication using the Mobile App or mark a publication for download from within the ATP Aviation Hub Cloud Application. In the updated mobile application, the "Sync" command is now called "Download".

Before downloading, you will need to set how long you need to retain the publication on your mobile device. A library network license is used while the publication is on your mobile device. The network license will be automatically released after reaching the date you set and the document will be deleted.

IMPORTANT: Hub Admins can release a network license used on a mobile device. To release a license, click "System Settings", then display the user settings and locate the mobile device. Use the "Action" menu to release the license.

For More Information: If you have any questions or concerns, please contact ATP Customer Support.
